RESTAURANTS & BARS

From our very first days in Phnom Penh and in Siem Reap, FCC has been the meeting place for intrepid adventurers, locals and visitors from around the world – where, in colonial settings perfect for conversation, good food and drink have always been the order of the day. And, where over a great repast, sharing of information and telling of stories big and small, myths have been born.

- Stories told -

### **The Guardian 9, September 2005**

FCC, Siem Reap, Cambodia FCC is for travelers who like their colonial atmosphere pared down and contemporary. Set in the grounds of a former French governor's holiday home.....The atmosphere recalls a colonial setting, the style is confidently contemporary and the prices belong to a forgotten era.

### **Hotel Design 28, April 2008**

FCC Angkor presents guests with the opportunity to experience world class cuisine in a thoroughly unique setting. The stylishly casual FCC Angkor restaurant and bar offers a variety of dining options throughout the day from freshly baked breakfast pastries through light and healthy lunches to innovative gourmet evening meals.

### **The Nation – Thailand 8, February 2011**

After trekking around Angkor Wat, this Siem Reap club is the best place to unwind after a long, hot day of touring the spectacular temples of Angkor Wat in Cambodia, the Foreign Correspondents' Club in Siem Reap provides a glorious retreat for tired travellers to relax and reflect upon Angkor's ancient wonders.

Please enjoy.
